

## BB-1001WP(R)A Weather Protected Enclosure

Notes: Height: 11 11/32". Width: 13". BB-1001WPA is a white model. BB-1001WPRA is a red model.  
Connect chassis ground stud to earth ground.

To prevent water from entering the box:

- Use a threaded conduit connector to provide entry for cables.
- Apply outdoor-rated weatherproof silicone to the 4 mounting holes and around the threaded conduit connector.

Refer to model RAM-1032TZDS in LT-617 RA-1000 Series Manual for wiring instructions and DIP switch settings and operation.
